

Focused Corporate Bond

October 2020

Firm Overview

Lorica is an investment counsellor, committed to providing an entire investment service including management, administration, communication and compliance. Lorica's investment team and process is characterised by stability, security and consistency and an ongoing commitment to delivering superior results.

Philosophy

Underpinning Lorica's investment philosophy is a belief that value can be added through active management in all market environments. We believe a comprehensive range of core bond market competencies can be used effectively to manage within a central risk management paradigm. Economies and markets are dynamic, and we have learned they call for an adaptive, subjective approach to forecasting. However, construction of diversified, yet targeted portfolios is ideally suited to our proprietary computer-based models and algorithms.

Investment Strategy

An actively managed corporate bond strategy investing in investment grade corporate bonds and other investment grade securities issued by Canadian corporations. The investment strategy focuses on industry and issuer selection with an emphasis on credit risk management.
